

Date: January 13, 2025

From: Colby Palmersheim – Treasurer  
Minnesota Association of Drainage Inspectors (MADI)

To: County and Watershed District Drainage Inspectors, Previous year  
associated members

Subject: 2025 Membership/Associate Membership Dues

Happy new year! We look forward to what 2025 will bring for our group. Minnesota Association of Drainage Inspectors is again holding our annual membership drive, and registration for our spring conference, which will be March 6, 2025 in Willmar, with the round table discussion held the evening prior.

The Minnesota Association of Drainage Inspectors was incorporated in May of 1998, and typically consists of two meetings per year. The purpose of MADI includes (1) drainage inspector education, training and networking; (2) community/public awareness, education and training; (3) drainage-related agency/entity coordination; and (4) legislative participation. The MADI board continues to work on a website that can be utilized by all Drainage Authorities.

According to our bylaws, each County Drainage Authority is allowed (1) one regular membership. Other members are to be under associated members. This membership is for voting purposes, and all other benefits remain the same between regular and associate. New in 2025, this membership will also open access to a new Microsoft Teams Platform for collaboration and document sharing through the MADI group.

Speakers in the past have been; Drainage Attorneys, Agency Staff (BWSR, DNR, ect) Engineering Firms, companies with drainage related products and others with relevant information.

We hope you consider a 2025 membership. Please complete the registration link and an invoice will be sent to you. <https://arcg.is/1KfPz9> or scan the QR Code

Sincerely,

Colby Palmersheim, Treasurer
